

➤ The Language of Sherry

Spanish+ Sherry

The programme

Learn the language of sherry on one of the Spanish Language courses organised by Tenidiomas in Jerez de la Frontera, home to the Denomination of Origin Jerez-Xères-Sherry. These courses combine language tuition with a series of guided tastings and visits to local wineries and vineyards, allowing participants to fully understand the sherry-making process in its own language - Spanish.

Participants can choose a General Spanish programme plus visits or the "Premium" programme where, apart from learning, practicing and improving general Spanish skills, the sessions explain the different types of sherry and their production process, suggested food-pairings, specific vocabulary, expressions and the history of winemaking in the Jerez region.

The Language of Sherry
